LÁMPARAS DECORATIVAS

Las lámparas decorativas son elementos de iluminación que se utilizan en proyectos de diseño de interiores para agregar estilo, ambiente y carácter a un espacio. Estas lámparas van más allá de su función de iluminación y se convierten en piezas de decoración que complementan la estética general de un espacio, añadiendo un toque de estilo y personalidad.

Las lámparas decorativas pueden tener una amplia variedad de formas, tamaños, estilos y materiales, y se utilizan en diferentes áreas de un proyecto de iluminación, como en salas de estar, dormitorios, comedores, recibidores, oficinas y otros espacios interiores. Pueden ser de mesa, de pie, de techo o de pared.
